Video Camera (w/HDMI out)	\$700
Computer (w/HDMI out)	\$1000
Aspire Scoreboard Software	\$800
Camera Mount / Tripod	\$100
Cables	\$100
Approximate Total	\$3350

Hardware Setup

Software Setup

- The ATEM Mini Pro has software that can be downloaded from their website. This software will find your ATEM Mini Pro on your intranet once it has successfully connected. The software will allow you to configure the ATEM Mini Pro with the API Streaming Key provided by the streaming service. It will also allow you to set the video overlay settings that you want to livestream.
- The Aspire Scoreboard software will need to be setup to talk with your timing system. If you have your timing system connected to a scoreboard already, you can purchase a splitter (cable) that will split the scoreboard output data to the Aspire Scoreboard computer. This information can be found in the Aspire Scoreboard help manual.

Disclaimer of liability

To the extent not prohibited by applicable law, in no event will Aspire Software Development LLC be liable for personal injury, or any incidental, special, indirect, consequential or punitive damages whatsoever, including, without limitation, damages resulting from delay of delivery, for loss of profits, data, business or goodwill, for business interruption or any other commercial damages or losses, arising out of or related to this agreement or your use or inability to use the service, however caused, whether under a theory of contract, warranty, tort (including negligence), products liability, or otherwise, even if Aspire Software Development LLC has been advised of the possibility of such damages, and notwithstanding the failure of essential purpose of any remedy. In no event shall Aspire Software Development LLC's total liability to you under this agreement for all damages (other than as may be required by applicable law in cases involving personal injury) exceed the amount of fifty dollars (\$50.00).
